

# PUREPRO® THERMOSTATS

## DP711 Digital Programmable 7 Day Heating & Cooling Thermostat

### Features:

- | Energy Star certified
- | Preprogrammed – up to 4 programs per day
- | Separate programs for heating and cooling
- | Battery powered: (2) “AA” batteries included
- | 5 minute air conditioning compressor delay
- | Temporary and constant temperature override
- | Display illuminates at the touch of light button
- | Program lock feature
- | Decorative wall plate is available
- | Fully programmable fan

### Compatible With:

- | Most 24V gas, oil, electric heating and air conditioning systems
- | 2 wire hydronic systems
- | Millivolt systems
- | Single stage heat pumps
- | Hydronic air handler systems

### Specifications

Temperature Control Range	45°F to 90°F, 12/24 hour time capable.
Terminals	G, Y, W, RH, B, O, RC, Solid pin connectors allow usage with both 24V and millivolt equipment.

## DP722 Digital Programmable 7 Day Heating & Cooling Thermostat W/Universal Compatibility

### Features:

- | Controls up to 2 Stages of heating and cooling plus auxiliary and emergency heat
- | ENERGY STAR Compliant, Default ENERGY STAR approved program
- | Auxiliary and emergency heat indicators
- | IAQ independently programmable fan
- | 4 periods per day
- | Decorative Wall Plate is available for thermostat
- | Optional smart recovery
- | Multimode keyboard lockout with user programmable 3 Digit Code
- | Programmable high and low setting limits
- | Dual power capable (system/battery)
- | Multi-stage adjustable temperature differential/cycle rate
- | Programmable fan delays for heat, cool, in both on and off

### Compatible With:

- | Most 24v Gas, Oil, Electric Heating and Air Conditioning Systems
- | Multi-stage Heat Pumps
- | 2 Wire Hydronic Systems
- | Hydronic Air Handlers
- | Millivolt Systems

### Specifications

Temperature Control Range	45°F to 90°F (7° to 32°). Accuracy: + 1°F over a range of 50°F to 95° F.
Heat/Cool Terminals	RH, RC, O, B, W1, W2, Y1, Y2, G, E, C

## DP711TS Digital Programmable 7 Day Touch Screen Heating & Cooling Thermostat

### Features:

- | 7 Day Programming – 4 Periods Per Day
- | Smart Recovery
- | Default ENERGY STAR® Approved Program
- | Lighted Display
- | Hold Button
- | Touch Screen Lockout Code
- | 2 or 5 Minute Delay
- | Temporary Temperature Override
- | Filter Monitor
- | Energy Usage Monitor

### Compatible With:

- | Low Voltage (24 Volt) Systems
- | Single Stage Heat Pumps
- | High Efficiency Systems
- | Millivolt Systems (Wall Furnace)
- | Single Stage Heating and Cooling Systems

### Specifications:

Heat/Cool Terminals	W,Y,G,B,O,RC,RH,C.
Electrical Ratings	1 1/2 AMPS at each terminal, 2 AMPS total 24v AC. System or Battery Powered: 2 "AA" Batteries
Temperature Control Range	45°F to 90°F (7° to 32°). Accuracy: ±1°F over a range of 50°F to 95°F.
